

Dale Dellutri has had a life-long fascination with science and technology. He's worked with computer hardware and software since the late 1960's, and has managed technical employees and projects in various fields including programming, data center construction, legal, tax, and futures and equity trading. He has written programs in many computer languages. He is now retired.

He has an MBA and a MS in Information Science from the University of Chicago, and a BS in Engineering Science from the Illinois Institute of Technology.

He is an amateur astronomer, specializing in computational astronomy, and is a member of two clubs.

Skokie Valley Astronomers: <https://www.skokievalleyastronomers.org>

Northwest Suburban Astronomers: <https://www.nsacclub.org/>

He gives astronomy-themed presentations each year at these and other astronomy clubs, at a local Astronomy Day meeting at Harper Junior College in Palatine, IL, and at other venues. His presentations have been both in-person and virtual (via Zoom).

He maintains a personal web site:

<https://www.daledellutri.com>

The home page includes information about his amateur astronomy pursuits, his public presentations, and other items.
